Dohany's this year was that of last evening, when the Cleveland-Haverly minstress held the boards. The "standing room only" sign was hung out shortly after 8 o'clock, and when the curtain rang up there was very little standing room to be had. The entertainment was a revelation in minstrelsy and without exception the finest thing of its kind ever produced in the city.

The only objectionable feature was the

rushing of the programme, which was cut considerably to allow the company to make the Rock Island train east at 10:45, that train being held until that time to await the arrival of the Union Pacific. This was a source of great disappointment to the audience, and the management was censured on this account. When the curtain fell at 10 o'clock, the audience kept their seats, expecting something that never came, when they sorrowfully left the hall. That

Mayor Robrer's Views on the City Hall Question.

THE WORK OF THE GRAND JURY.

A Reduction in the Tax Levy By the County Board of Supervisors -New Sewers Ordered -General Notes.

Mayor Robrer Home Again. Mayor Rohrer returned yesterday mornng from Avalon, Mo., where he was called to attend the funeral of his brother last Sunday. A rush of official business awaited his return, and he was allowed little time for rest before beginning the work of signing a large lot of city warrants for bills allowed at the last session of the council. The mayor is considerably indisposed at present, but hopes to work off his ill health in a few days. He was asked regarding several city matters but could give nothing but rather unsatis-factory information, owing to his absence and ignorance of what had transpired during

that time. However, he was induced to express himself on the city hall question. Said he: "I don't believe that the people are ripe for that yet, and it would be poor policy to have them pass upon it now. We don't want a city hall to cost less than \$125,000 or \$150,000, and as I understand it, a large proportion of our cit izens have an idea that about \$25,000 or \$50. 000 would put up as fine a building as the city requires. We ought to have our public buildings in proportion. The government building cost \$250,000; the county court house \$165,000, and a city hall should not cost less than \$125,000. I don't think it advisable to do anything about it this year, except to secure a good site. It will take some time to do that, for we want a place where we will not be cramped tor room. We open the bids for sites on the 16th inst., and then perhaps we will be able to get some idea as to what i cation suggested, but a site can not be pur-chased inside of two or three months. If the city is willing to put about \$150,000 into a new building, it may be all right, but I am afraid that this is rather soon to think of it.'

"Changing the subject, what do these bids just submitted to the council mean—the purhase of a chemical enrine!"
"I didn't know that the city had advertised for any bids for furnishing a enemical engine, or any other apparatus for the fire department. I don't know as the city wants a chemical. It seems that there are popular crazes in fine apparatus, just the same as in everything else, and just now chemical engine apparatus of the same as in everything else, and just now chemical engine are successful. gines are quite fashionable—and I guess that they are very good things. Of course the city will have to provide new apparatus for that new hose house on Lower Broadway, but I don't think that anybody knows just yet what the new apparatus will be. It is very probable that a hose cart will be put down there, and the new apparatus located more centrally. A hose cart is needed there, and a chemical engine would not be desirable except for the business portion of the city. It is too early yet to tell what will be done. The city is doing considerable now in the improvement line, and it will not do to rush

A Reduced Tax Levy All Around. The county board of supervisors fixed the tax levy at their meeting yesterday morning, as follows:

with last year's levy, which was 15% mills.
The board then proceeded to elect an overseer of the poor, and on the first ballot re-clected M. D. Hardin, who received four votes, H. Goss receiving one. Mr. Waite, who is confined to his home by illness, sent his vote by messenger. The tax levy for this year, both city and county, is greatly reduced from last year, when it amounted to 73% mills, and in 1887 it amounted to 68% mills. This year the city levy is 33 mills and the county levy as above stated, 1336 mills. The school tax of 1 mill in the county levy will not affect the property owners of this city, as this is an independent school district and has a special levy. The school tax for the city will be 13 mills, which make this year's total levy 5914 mills, a duction of 14% mills. The school tax last year was 14 mills, but with the increased as sessed valuation a 13 mill tax will raise the necessary amount this year.

Work of the Grand Jury. The grand jury is making haste slowly, and is holding half-day sessions. Various reasons are assigned for this, and all of them may be partially responsible for it. The principal reason alleged is that work is dragging and witnesses can not be secured as fast as desired. There are not as many cases to be investigated as at the last session, but considerable time is required to get them in presentable shaps. One of the grand jurers, Squire Pratt, is in poor health, and for the past few days has been feeling so badly that it was with difficulty that he attended the meeting of that body. Wednesday afternoon the jurors and a part of the board of supervisors went to Omaha to take in the exposition, and to these three causes may be attributed the small amount of work done thus far by the grand jury. It is stated that no report will be made this week, and there is little reason to expect a return of indictments until the latter part of next

The Governor of Kansas Pardons Mrs. Elizabeth Cook. LEAVENWORTH, Kan., Sept. 5 .- [Special Telegram to THE BEE.]-Mrs. Henrietta Cook, of Osborne, Kan., was this afternoon released from the state penitentiary, having been pardoned by Governor Humphrey. Mrs. Cook has been confined in the penitentiary thirteen years, having been convicted of polsoning her husband in 1876. There are now grave doubts of her guilt. Her husband was known to use strychnine for a disease. Mrs. Cook's history reads like a novel. At the age of fourteen she was forced into a hateful union with a man she did not love. She was, however, always an affectionate wife, and it was on circumstantial evidence that she was convicted.

A Manine Kirls His Wife. Cricago, Sept. 5.-John Johnson, a Swedish carpenter, locked himself and wife in Dr. Morgan's office to-night, and drawing a dirk plunged it into the woman's breast seven times. Her shricks caused a crowd to assemble, but they could not gain an en-trance. One neighbor hurled a brick through the window, but Johnson kept, on with his murderous work. When the police arrived and broke into the office the woman was dead. Johnson had been suffering some time from the effects of a sunstroke received last year and was subject to fits of temporary aberration of the mind, for which he under treatment by Dr. Morgan.

"EVERY IN H AN EMPEROR." Mr. Chauncey Depew's Description of Young Kaiser Wilhelm.

The chief topic of political interest of

man Drug Co.

the past week is the visit of Emperor William, says a London cable to the New York World. Thousands of Englishmen flocked to Portsmouth and to Aldershot purposely to see what the young monarch was like. All Americans who could go, went, among them Chauncey Depow and Street Commis-sioner Coleman. Mr. Chauncey Depew saw the emperor when the latter came on board the Teutonic. Questioned by the World correspondent on the

subject Mr. Depew remarked: "I had

seen him once before in Tyrol with his grandfather when the chances of his

becoming emperor seemed very remote. I thought him then a manly, self-possessed young fellow. Now he looks every inch the emperor in all that the

word means from the modern and me-

diævel standpoint. He looked, so far

as nineteenth century conditions would permit, what Frederick the Great might

have been in his time. His sole idea seems to be militarism on land and on

sea for the protection of the German

empire and for the maintenance of its

unity and power. He has taken very careful notes of one of the greatest naval

military displays that the world has

ever seen, an array of armament which was intended to astonish him and to

show him the value of England as an

ally, and the danger of having her as an enemy. You should have seen him look at those new cannon which fire

twelve shots to the minute, on the

Teutonic. He went through them like

a dose of salts, examined them inside

and out, and turning to an officer at his

side he said emphatically: 'We must

have those guns, and quick, too.' He listened with mild interest to the de-

scription of the fine cabins and luxa-

rious accommodations for the passegers

but what he wanted to know all about

was those twin screws, and what they
